

2021 SEMCME RESEARCH COMMITTEE

In addition to the Annual Research Forum, the Research Committee organizes and conducts the annual Research Workshop Series which helps residents learn the fundamentals of research methodology through comprehensive discussion coupled with relevant research study examples. The emphasis in each of the sessions is on the research process including defining and assessing the problem, planning the study, implementing and analyzing outcomes, and communicating results. The Workshop Series allows residents the opportunity to interact with faculty in SEMCME with research expertise who provide limited research project guidance.

Camelia Arsene, MD, PhD, Medical Director SDOH, ProMedica, Toledo, OH Assistant Professor College of Medicine and Life Sciences, University of Toledo, Ohio

Dwayne Baxa, PhD, Associate Professor of Microbiology, Department of Foundational Medical Studies OUWB School of Medicine, Rochester, Michigan
