*W.E. Deming, often recognized as the father of Quality Management has quoted,
"It is not enough to do your best, you must know what to do, and then do your best".*

*This interactive online workshop will introduce faculty, residents and fellows to the key principles
of developing successful quality improvement projects.*

*We will examine the Institute for Healthcare Improvement Model for Improvement framework, apply essential process
improvement tools, and highlight examples and venues for sharing quality improvement work.
Participants will have an opportunity to share and receive feedback on their project ideas and also receive a certificate
of completion from SEMCME. Recommended for both medical residents and fellows of all specialties to learn the
fundamental approaches for conducting QI research.*
