ABOUT THE PROGRAM:

Transition to Practice is not a recruitment event. It is an educational program that will help residents feel more comfortable with the process of finding their first post training position and understanding employment agreements. The program will be offered in a relaxed, informal environment with ample opportunity to ask questions. The information provided will be beneficial regardless of where a physician plans to practice once training is completed. Key topics to be covered include:

- **Preparing For Your Search**

The Process, the Timeline, and How to Look Good on Paper

- **Exploring Opportunities**

What to Expect During Interviews, Where to Look, and What Questions to Ask

- **Contracts, Compensation and Benefits (Oh, My!)**

What to Look For In Employment Contracts – Standard Provisions, Risky Provisions and How to Negotiate

WHO SHOULD ATTEND?

This course is targeted towards residents who are nearing the end of their medical training, and would like to find employment within the next two years!

This program is free of charge for SEMCME members, although registration is required. Please see the next page for more information on how to register online.
