

7th Annual Michigan Summit: Quality Improvement, Patient Safety & High Value Care

Live Stream Slide Presentation Competition

SEMCME is sincerely grateful to all residents, fellows and faculty for their participation in the Michigan Summit on Quality Improvement, Patient Safety & High Value Care during the COVID pandemic. We believe it is important to celebrate the full scope of your work by continuing this competition.

Instructions for LSSP Presentations

Create a PowerPoint presentation of your project and note the following requirements:

- a. It is recommended that you limit the presentation to not more than 12 slides.
 - b. The presentation should be **limited to 10 minutes**, leaving 5 minutes for questions from the judges. We recommend practicing your presentation several times and anticipating questions that judges may ask.
 - c. Additional questions may be taken from the audience if time allows.
- By May 13th, you will be informed of the exact time of your presentation, but you should be available from 8:15 to 12:30 on Wednesday, May 18, 2022. We will also provide the zoom link for the Summit. The link also will be published on the [Semcme.org](https://semcme.org) website under the 2022 QI Summit tab.
 - **Please email a copy of your presentation to Marie Foe at he3791@wayne.edu by Friday, May 13, 2022.** This will ensure that a copy of your presentation will be available in case you have technical difficulties with your own device.
 - The LSSP presentations will be judged by at least three judges.
 - A Z-score will be utilized to account for variability in scoring among the judges.

Judging and Awards

The judges for the LSSP competition will consist of leaders in graduate medical education from SEMCME member institutions.

The criteria used to judge the competitions is as follows:

- ✓ Definition of QI/PS or wellness problem clearly stated
- ✓ Statement of Project Objectives using SMART Aim
- ✓ Utilization of QI Tools
- ✓ Clearly defined metrics
- ✓ Suggestions – innovative or designed to improve performance
- ✓ Multi-disciplinary/multi-professional approach
- ✓ Impact on patient care and/or caregiver wellness
- ✓ Clearly stated conclusion
- ✓ Presentation - organization, use of visual aids, delivery

LSSP presentations will be recorded and available for review by all registered participants following the Michigan Summit on Quality Improvement, Patient Safety & High Value Care.

- Winners will be announced during the awards ceremony of the 7th Annual Michigan Summit on Quality Improvement, Patient Safety & High Value Care May 18th, 2022.

If you have further questions, contact Dr. Nadia Juzych at njuzych@med.wayne.edu.
