

# KRESGE EYE INSTITUTE

## Summer Externship Program

### Overview

Kresge Eye Institute welcomes Wayne State University SOM students to participate in a summer externship program following the completion of their first year. This experience offers students an introduction to the field of ophthalmology, with learning opportunities centered on vision care and pathological diseases related to the eye. Another important benefit to the student will be the exposure to numerous faculty and residents for professional career development and mentorship.

**Core Curriculum:** Students will attend a lecture series designed to cover many aspects of ophthalmic disease and bridge basic science knowledge into the clinical realm. In addition, students are encouraged to become involved in case reports, research collection and publication based on their exposure and initiative.

Two externship tracks are offered.

1. **Clinical Track** – Stipend \$200/wk – Up to 4 positions available - Exposure to wide breadth of ocular pathology including glaucoma/cataract, retina, orbital disease, oculoplastics, neuro-ophthalmology and pediatric ophthalmology services. Weekly didactic session with faculty member.

Dates May 14 - June 8, 2018

2. **Research Track** – Stipend \$300/wk – Up to 4 positions available - Involvement in basic science research and working as part of research team. Weekly didactic session with faculty member.

Dates May 14 - June 29, 2018

### **Stipends:**

- Stipends will be awarded as tuition scholarships to recipients upon successful completion of the externship.
- In addition, students will be eligible for consideration for the Fraser Endowed Scholarship upon completion of the externship.

### **Selection Criteria:**

- Personal statement of goals and objectives
- Curriculum Vitae

Interested students should complete the **application** via mail or e-mail along with a copy of **CV/Resume** no later than **February 26, 2018**. Students will be notified of their selection by **March 12, 2018**.
