

4th Annual SEMCME Pediatric Resident Research Forum

Friday, May 3, 2019

11:30 am – 5:00 pm

Ascension St. John Children's Hospital
22101 Moross Rd.
Detroit, MI 48236

About the Forum

This Fourth Annual SEMCME Pediatric Resident Research Forum is a collaboration between the pediatric residency programs at Beaumont Children's, Children's Hospital of Michigan, and Ascension St. John Children's Hospital. It is designed to highlight quality resident research and foster intellectual curiosity in order to build a spirit of inquiry among the SEMCME pediatric resident physicians. The Forum will encourage research relationships, foster the development of research and presentation skills, and allow faculty members, residents and registrants the opportunity to exchange scientific information.

The Forum will feature consecutive slide presentations made by residents from the three participating hospitals. A panel of judges will determine the award winners.
