

Developing a Framework for Understanding the ACGME Next Accreditation System and the Self-Study Protocol

James R. Tyburski, MD

Top 6 Points

1. Don't get confused by the nomenclature
2. Do keep up a reasonable pace
3. Be inclusive; you can always throw the crazy stuff later and you will find hidden gems
4. Do have a thick skin – sometimes it isn't personal
5. Don't be hesitant to seek help/new ideas
6. Remember you are the face of the review
