St. John Hospital and Medical Center

FIRST YEAR STUDENTS SUMMER PROGRAM

The First Year Summer Program is available for first year medical students from Wayne State University SOM and medical students from the Detroit Area**. This program runs from the end of May through mid-August, with a variety of rotations being offered to students who have completed their first year of medical school. Students rotate in an observation capacity and receive a stipend of $150 per week***. Hours vary by department; 7-3 or 9-5, etc. All rotations are taken for non-credit. Students will spend one week in each rotation of their choice, so request many choices as well as alternative choices. Our wish is to give you the opportunity to familiarize yourself and be comfortable within the hospital setting; working along attending physicians, resident physicians, and other hospital personnel.

The minimum amount is three weeks, and the maximum amount is six weeks.
The weeks do not need to be taken consecutively.

There are approximately 45 positions available for this program on a first come, first serve basis. SJH&MC gives you the flexibility to choose different specialties you wish to know more about. You are also encouraged to try areas that you may not have considered or do not think you will like. Your experience could pleasantly surprise you or reaffirm your thoughts.

**There will be no rotations scheduled the last week of June and the first week of July

The student rotations offered are designed to appeal to the interests of the individual. Each student is assigned to a preceptor or team. Students attend all major meetings conducted by the department in which they are rotating. They also attend hospital-wide conferences such as CPC, Hospital Grand Rounds, Basic Science Lectures, Tumor Conferences, Scan Reviews, Oncology and Pathology Conferences.

St. John Hospital & Medical Center has fully approved residency programs in the Departments of Emergency Medicine, Family Medicine, General Surgery, Preliminary Surgery, Internal Medicine, Preliminary Medicine, Obstetrics and Gynecology, Pathology, Pediatrics, Podiatry and Transitional Year. There are fully approved fellowships in Cardiovascular Diseases, Hematology/Oncology, Interventional Cardiology, Infectious Diseases and Nephrology.

1. Applications will not be accepted prior to February 6, 2017. The deadline for applications is February 27, 2017. Accepted by email only 313-343-7840.
2. Notification of acceptance will be sent to you via email on March 13, 2017.
3. We will require your confirmation that you accept our program no later than March 27, 2017.
4. There will be an orientation scheduled in early May.
